- Shopify
- Google Suite
- Microsoft Office

## Other Industry Skills

- Web design trends
- User Interface
- User Experience
- Wire framing

## Soft Skills

- Team player
- Time management
- Problem-solving
- Critical-thinking
- Communication
- Decision-making
- Organizational
- Self motivated

# Joel Wiesner

## Front-end Web Developer & Web Designer

I am a dedicated front-end web developer, with experience in creating responsive user-friendly interfaces, using modern web technologies and design.

**Projects** [Visit my portfolio](#) - [joelcodes.co](http://joelcodes.co)

🔗 [Color Scheme Generator](#) • *HTML, CSS, JavaScript, The Color API*

Using The Color API, I developed a color-scheme generator from an existing Figma design. It is mobile friendly and allows users to pick up to 4 different color schemes.

🔗 [thehaunting.co](#) • *HTML, CSS, JavaScript, OpenAI, Parcel*

A fun website fully designed and developed independently, employing a dataset of haunted locations sourced from *The Shadowlands Haunted Places Index*. To elevate the quality of each eerie tale, I used the OpenAI API while still adhering to the authenticity of the original narratives. I bundled this project using Parcel prior to its deployment to the online environment.

## Experience

**As Of Latte** - [www.AsOfLatte.com](http://www.AsOfLatte.com) ↗

*Self-Employment | January 2016 – 2021*
